

OTTO FRANCK
IMPORT

We Import
Variety

CANNED FOOD

Open for Your Potential

We have always handpicked, so to speak, by carefully selecting our suppliers and products to serve our customers. It all started with a delivery of sultanas from Greece. That was in 1920.

The quality of the goods and the smooth processing were so well received by the customers of company founder Otto Franck that further products followed in the same month: first Brazilian whole rice and Superior Santo green coffee. Later cigars, matches and canned milk.

Today with over 1,500 products, Otto Franck Import GmbH & Co. KG stands for variety and freshness from all over the world. For high availability, for service and advice as well as for smooth logistics. Thanks to the best contacts and long-standing relationships, we are able to import outstanding quality at great prices all year round.

Over the decades, we have established a broad product portfolio on the market for our canned food division. With well-known and popular store brands as well as for the labels and private brands of our customers. Otto Franck Import has also always been a reliable partner in the frozen products, espresso and ice-cream ingredients sectors.

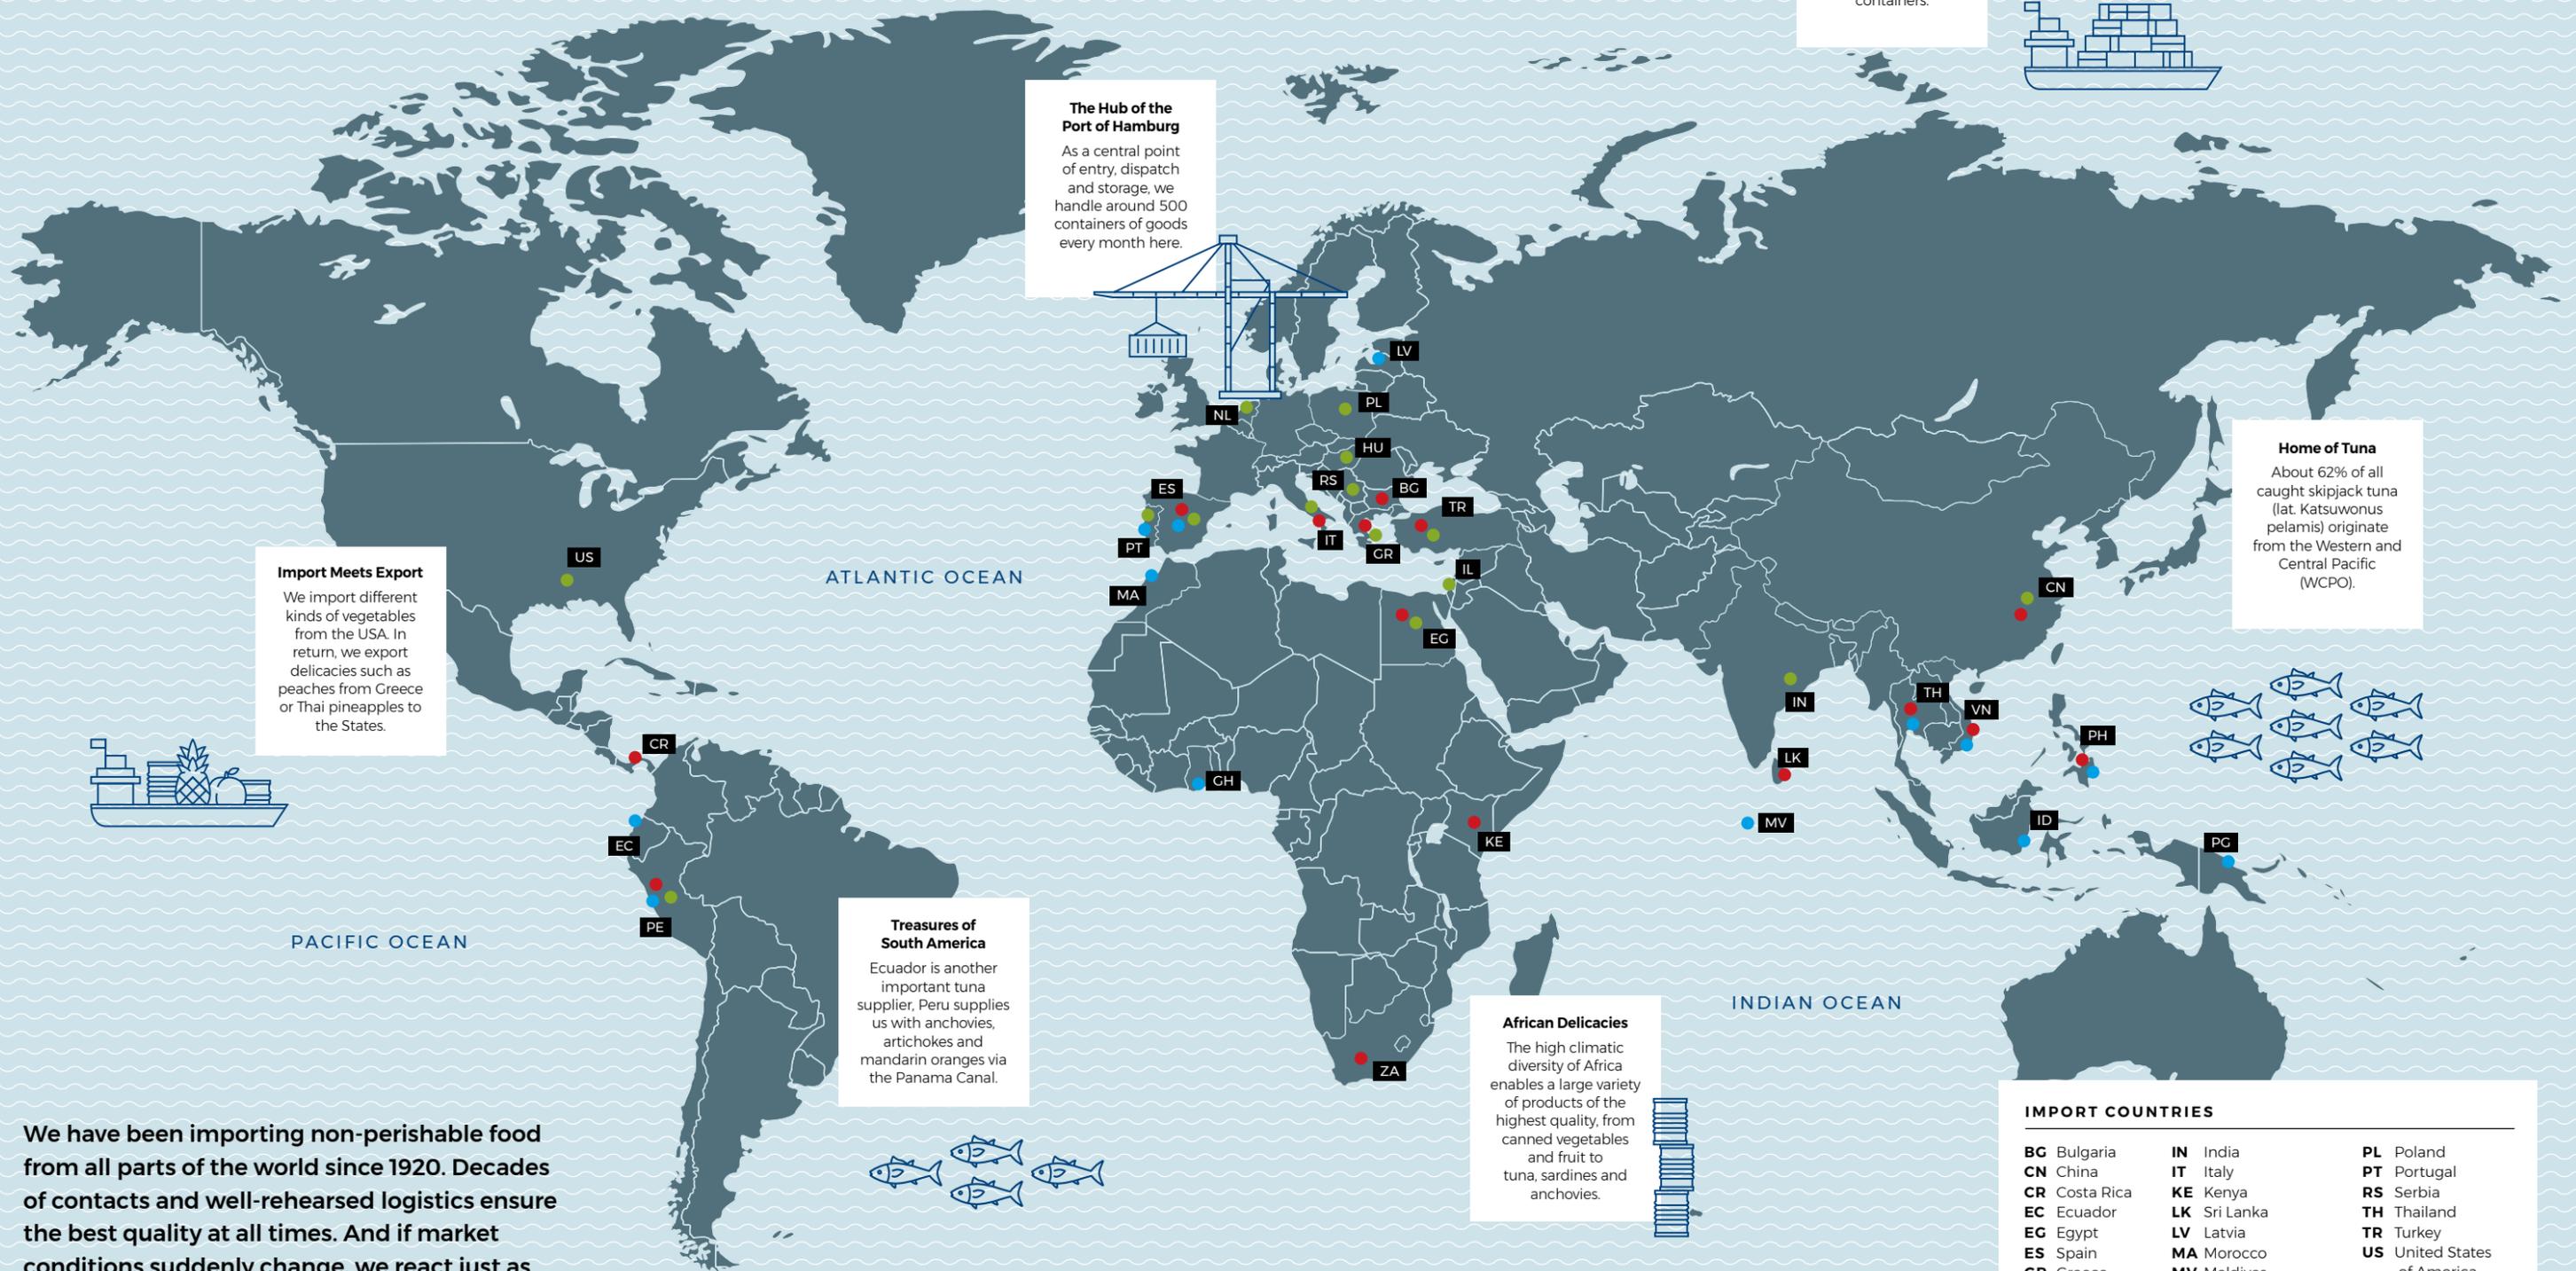

Responsibility as a family tradition: Stefan, Dr. Rudolf, Monika and Florian Kraus (left to right) lead the 3rd and 4th generation of the company.

And in the future? We of course also have many new goals for the coming decades. For example, we want to expand our export business. Our experience in sourcing and logistics will enable us to develop further international markets. Various product developments and packaging innovations are already raring to go. We will also continue to expand our expertise in the area of organically produced food. We want to intensify our sustainability efforts, invest further and establish higher social standards together with our suppliers. And last but not least, work cooperatively with non-profit organisations and local stakeholders on projects for the sustainable management of fishery resources.

Thank you very much for accompanying us on this journey.

Sincerely Kraus Family and Team

International Variety

Import Meets Export
We import different kinds of vegetables from the USA. In return, we export delicacies such as peaches from Greece or Thai pineapples to the States.

The Hub of the Port of Hamburg
As a central point of entry, dispatch and storage, we handle around 500 containers of goods every month here.

Full Speed On the High Seas
The largest container ship, the „Ever Alot“, can accommodate 24,004 standard containers.

Home of Tuna
About 62% of all caught skipjack tuna (lat. Katsuwonus pelamis) originate from the Western and Central Pacific (WCPO).

Treasures of South America
Ecuador is another important tuna supplier, Peru supplies us with anchovies, artichokes and mandarin oranges via the Panama Canal.

African Delicacies
The high climatic diversity of Africa enables a large variety of products of the highest quality, from canned vegetables and fruit to tuna, sardines and anchovies.

SERVICE & LOGISTICS

Reliable. On Time. Personal.

The food import business is constantly changing. We can face it. With proven processes. With perfectly networked logistics. With personal advice and lots of fresh ideas.

Success needs partners. You can always rely on us. Just as we can trust our long-standing partners 100 per cent. This provides security, even with special requests or product specifications. In close exchange with customers and suppliers, we address these issues. We identify new sources of supply worldwide, offer you seamless service and are always there for you: from filling to flawless food law declaration and individual labelling through to delivery as requested.

Otto Franck delivers:

- › reliably and on time
- › outstanding product quality
- › competent and personal advice
- › transparency and security
- › great prices

Seamless Logistics

The basis for our all-round service is well-rehearsed logistics. We take over the entire supply chain from producer to delivery. This helps to keep your storage and financing costs low. In order to avoid delivery bottlenecks, we constantly have more than 300 different products in various brands available for disposition. In addition, we use a strong network of forwarding and warehousing service providers. Our merchandise management system makes it possible at any time to trace back each delivered can using the production code. In the case of fish products, we can even trace where and when the processed fish was caught.

- › Complete handling from the place of origin to customer's warehouse
- › Shipment, customs clearance and storage
- › Individually commissioned pallet deliveries
- › Delivery of full container loads

Long-lasting Taste

Canned food products are practical, high-quality and non-perishable. What we look for in our selection and why there is more in our fish, fruit and vegetable cans for you.

Vegetables

We source canned vegetables of the highest quality from Europe, Asia and South America. Our products range from juicy sweet corn from China to olives from sunny Spain to fine asparagus from Peru.

Fruit

Our canned fruit is always in season. Besides local fruits we also bring exotic fruits like mango, lychee or pineapple to you. All year round and in every conceivable can size.

Fish

With over 40 years of experience, we are one of the largest importers of canned fish products in Europe. We trade tuna in over 70 variations and sizes for our customers. Just as diverse: the range of canned sardines, mackerels and anchovies.

Trust Has Many Names

Our own brands have enjoyed the highest market penetration in the industry for decades. We won't settle for that. Instead, we are systematically sharpening our brand portfolio.

La Perla is popular with our customers far beyond the borders of Europe. For over four decades, the oldest Otto Franck brand has stood for quality, trust and variety with its wide range of products.

Arcobaleno means „rainbow“ and stands for natural diversity. Over the years, we have consistently developed this label further: from a pure wholesale brand to Arcobaleno Bio, one of the leading brands for canned foods from organic farming.

Selected high-quality fruits are the guarantee of the premium brand **Bakery's Finest**. Specifically our customers from the bakery and confectionery sectors appreciate these delicious canned fruits.

Our still young **Chen Lu** brand immediately set a new course in the Otto Franck brand portfolio. The growing range offers authentic Asian specialities from bamboo-shoots and vegetable salads to coconut milk.

Under the brand **Le Pêcheur** we market selected fish specialities for wholesale and retail. The range of tried and tested classics is constantly being refreshed with new recipes and variations.

A Partner You Can Rely On

Whether we serve as a supplier to the food processing industry or a partner of premium private labels: We have the ingredients for your success.

Supplier of the food industry

The range of products on offer in the food industry is constantly growing – just like Otto Franck's product range. We have been supplying customers in the food industry with goods of the highest quality for decades. Our customers include some of the largest food producers in Europe. We supply foods such as tuna, pepperoni and pineapple for frozen pizza, olives and corn for salads and fruits and berries for smoothies.

We make no compromises when it comes to packaging. We cater to our customers' wishes and deliver as needed in large cans without labels, in pouch bags, canisters or barrels. Logistics are carried out on Euro or hygienic pallets. Our ability to ensure continuation of delivery is crucial for the production planning of our customers. For this reason, we always keep a large reserve stock in our warehouse.

Thanks to our large network, we supply customers around the world with their desired specifications, serving both national and international production sites. There are no limits to the development of product variations according to customer requirements. Always in the required quantity and quality. Always on time.

Private label partner

Today, strong retail brands can compete with more established players. They require excellent quality of ingredients and brand image. Otto Franck delivers both from a single source.

Private labelling accounts for a large part of our sales, especially in retail. We have years of experience in introducing, consulting, implementing and supporting the products of our private label partners. As experts in this field, we take care of the entire design process, the food law requirements as well as the coordination and quality control of the label and box printing.

Product, packaging, design and logistics – we offer you the complete service for your product.

Whether you are an organic food brand, a traditional food retailer or an online delivery service, our combined package of first-class ingredients and premium presentation will help your brand successfully stand out from the competition.

CERTIFIED FISHING

Sustainability by Conviction

**Why do we focus on sustainable fisheries?
Because they are a personal concern to us.
And because, as one of the leading importers
of canned tuna, we think outside the box.**

Anyone who catches sea fish in the wild takes on a great responsibility. Towards the ecosystem, for biodiversity and with a view to the future. We are aware of this responsibility. But no one can take responsibility alone. We are therefore stepping up dialogue with our producers, fleet owners and regional fisheries organisations.

We are banning the use of drift nets and are focusing on a fishery that does not endanger dolphins. In addition, we commit ourselves to purchasing tuna only from areas with sustainably managed and healthy stocks.

For our La Perla MSC tuna (lat. Katsuwonus pelamis or „skipjack“) we already developed a MSC certified source of supply years ago.

We practise sustainability out of conviction. We have invested a lot of time and effort to become the first importer of canned tuna in Germany to obtain MSC certification in 2009. We are sure: Those who fish responsibly can also look forward to a richly set table in the future.

We are very pleased that many of our customers have now added MSC-certified tuna to their portfolios. We also offer our industrial and retail partners different variations of MSC tuna. These include lithographed cans or pouch, in water, in sunflower oil or as a premium product in virgin olive oil. You can also opt for a private label or choose blank cans. Whatever you require, we have the right MSC-certified tuna product to suit every need.

ORGANIC CANNED FOOD

Ecological and Practical

Fresh organic food has long ceased to be a niche product. Our constantly growing organic canned food selection proves the fact that organically produced non-perishable fruit and vegetables are also extremely popular.

DE-ÖKO-044

For a long time, the market for organic products was dominated almost exclusively by food with a short shelf life. Recently, the organic trend has expanded strongly to the convenience segment. We meet this increasing demand with our certified organic Arcobaleno products. And therefore meet the wish of more and more consumers for food that has been produced under strictly controlled regulations.

Ecological principles

Since the beginning of 2016, Otto Franck Import has been certified organic in accordance with EU Eco-Regulation No. 2018/848. We are now able to offer you canned food and other non-perishable products from organic cultivation that meet our own high standards.

We select our suppliers according to these ecological principles and deepen our relationships with responsible producers on a sustainable basis.

Specialities from our organic portfolio include, for example:

- › Organic chick peas
- › Organic kidney beans
- › Organic sweet corn
- › Organic jackfruit
- › Organic coconut milk
- › Various organic tomato products

By the way: At Otto Franck you can of course also obtain frozen products and espresso coffee in certified organic quality!

CERTIFICATIONS

Quality Without an Aftertaste

As valuable as the contents of our cans: Otto Franck certifications and quality standards.

International Featured Standard (IFS) Broker | Since 2010

The IFS Broker is a standardised procedure for the certification of quality management and is to be applied to all companies that mainly carry out trading activities. In particular, it is intended to guarantee the quality of foodstuffs, the health of consumers and the quality level of suppliers.

www.ifs-certification.com

International Featured Standards (IFS) Logistics | Since 2010

An important standard for companies offering logistics services. It covers all logistical activities such as loading and unloading, transport, treatment and resale. With the help of certification by qualified auditors of independent, accredited and approved certification bodies, the implementation and application of defined quality and product safety management systems is checked.

www.ifs-certification.com

Dolphin Safe Tuna | Since 1992

The problem of unintentionally high by-catches of dolphins in tuna fishing was addressed as early as the early '90s through the Dolphin Safe Programme in partnership with the Earth Island Institute and the Dolphin Rescue Society. Production facilities and catching vessels are regularly inspected by employees of the institute in order to ensure compliance with the regulations. Otto Franck Import has been involved in this programme since its inception with great commitment and financial investment. Since the start of the programme, the unwanted by-catch of dolphins has been reduced by 98%.

www.savedolphins.eii.org/campaigns/dsf

MSC Marine Stewardship Council | Since 2009

Otto Franck Import was the first canned tuna importer to be certified by the MSC Marine Stewardship Council in 2009 and has passed this certification every year to the present day. For this purpose, all specified criteria must be met, including: complete documentation and flawless traceability of the goods. Protection of stocks within a fishing area. Effective fisheries management and maximum protection of the ecosystem from the effects of fishing. Since 2013, Otto Franck Import has also been involved in a project aimed at MSC-certifying Moroccan sardine fishery.

www.msc.org

Friend of the Sea | Since 2013

Friend of the Sea is a leading certification and labelling system for fish and seafood from sustainable fisheries. Certification is carried out through audits by independent organisations and ensures compliance with established criteria for sustainable fisheries, such as the prevention of by-catches of endangered species (according to the IUCN Red List) and the exclusive use of fishing methods that do not affect the seabed. In addition, only species that are not overfished may be processed in certified products.

www.friendofthesea.org

Fairtrade Seal | Since 2019

After intense efforts we became one of 400 Fairtrade partner companies in Germany in 2019. The first product to be produced according to the strict Fairtrade Standards was the Arcobaleno organic jackfruit in a can. More products with the Fairtrade seal will follow in the future.

www.fairtrade.org.uk

Organic Certification According to EU Eco-Regulation No. 2018/848 | Since 2016

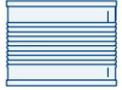

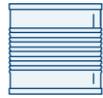

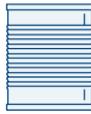

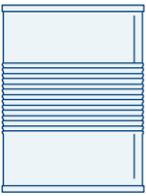

Since the beginning of 2016, Otto Franck Import has been certified organic in accordance with EU Eco-Regulation No. 2018/848. This means that we can now also offer you our products from certified organic agriculture. This also guarantees that the labelled foodstuffs have not been genetically modified, nor that chemical-synthetic pesticides, artificial fertilisers or sewage sludge have been used in their cultivation.

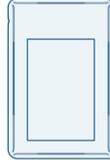

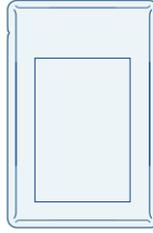

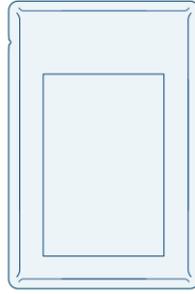

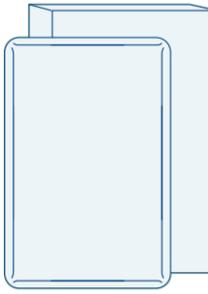

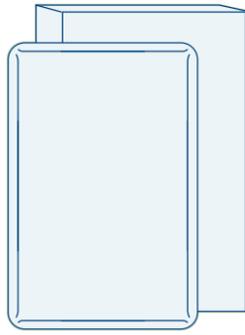

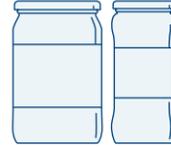

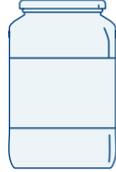

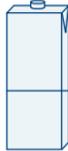

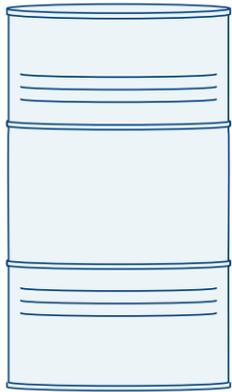

PACKAGING SIZES

Variety Begins with the Packaging

We love high-quality content. In order for our imported food to make a big impression on you as well, we fill it completely according to your wishes. In a wide variety of can formats and package sizes. Labelled according to your specifications.

From Coffee to Frozen Food

Otto Franck Frozen Selection

In addition to the large canned food portfolio, Otto Franck offers high-quality frozen food at great prices. Our selection comprises around 600 articles from the areas of fish and seafood, meat and poultry as well as fruit and vegetables. In addition, there are mushroom mixtures, lamb, venison, strudel and other baking specialties.

You can find further information at:
www.ottofranck.de/en/products

Original Italian Espresso Delight

For more than 50 years we have been working together with Procaffé as the importer for Germany. Under the Bristol brand, our partner roasts high-quality coffee blends in the Italian Dolomites. Procaffé imports the best quality raw materials from the world's leading growing regions for its finely tuned varieties. In 2016 the blend "organic 100%" was added, which is roasted exclusively with coffee beans from organic cultivation.

Ice-Cream Specialities and Ingredients

Since 1998 we have been the exclusive partner of the traditional confectionery manufacturer Giuso for Germany and the Benelux countries. With a product diversity of over 300 articles, we supply ice-cream cafés and Italian patisseries with the basic ingredients for the production of high-quality ice cream and various confectionery products. In addition, our range includes more than 30 types of ice cream that are produced without the use of animal products.
